

MINIMUM FLOOR SPACE RECOMMENDATION

KEY INSTALLATION NOTES:	PRE START CHECK UP:
<p>This unit is to be installed free standing normally at a lower level than the kitchen floor. Allow for the minimum dimensions shown. Keep outlet piping at a fall of 1:40 or more if required by local code. Use adjustable rubber pipe connectors as supplied. Connect hot water supply to the wash manifold. Follow the local plumbing code for the installation of a backflow preventor, wye strainer and water hammer arrestor if and as required. Only switch on after filling system to the required water level. Refer to manual for full installation details.</p>	<p>Ensure unit is positioned on a level surface and is plumbed in securely. Ensure electrical outlet is fitted with dedicated ground fault circuit breaker. Ensure that the unit is filled with water to the correct level. Set correct controller date and time as detailed in the manual. Ensure that collection receptacle is empty and securely in place.</p>
